Profile: Your payment service provider for simple online payments
Micropayment GmbH is a full-service payment provider that offers its customers a complete range of high-quality services, including software implementation, payment processing, and detailed analyses and statistics. You can choose among nine payment methods that are specially designed for e-commerce and paid content services. Ready-made payment windows and preconfigured shop plugins can be instantly set up and put in use. In addition, Micropayment also offers white-label APIs and interfaces for integration in a wide range of existing systems.

Profile:

Today, 15.000 companies rely on to payment service provider Micropayment

Micropayment specializes in the swift and secure processing of internet payments. Based in Berlin, the company has its own data center and ranks among Europe's leading payment service provider (PSPs). micropayment's professional products and services are the perfect solution for all online shops and content providers.

Analyses, reports and accounting at the touch of button

The best data are useless if they're not properly analyzed. Micropayment GmbH allows you to view all your transactions at a glance and analyze them using comprehensive real-time statistics. Professional data charts provide you with a complete overview and can be exported as often as required. Even when you're on the go, an iPhone app and an XML web service keep you up-to-date.

Payment systems:

- Kreditkarte (Visa, Mastercard, Amex)
- direct debit
- Online Bank Transfer
- prepayment / Bank Transfer
- Telephone / Call
- Mobile Pay / SMS
- paysafecard
- PayPal
- giropay
